CROW'S BLUFF BRIDGE

**TO BE BUILT 400 FEET
SOUTH OF THE FERRY**

**FERRY LOCATION IS AT BEND
OF RIVER AND WAR DEPART-
MENT WANTS DIFFERENT LO-
CATION.**

Michael Sholtz will in all probability
change the site of the proposed
bridge which he is to build across the
St. John's river at Crow's Bluff to a
point 400 feet south of the present
ferry. The county commissioners of
Lake and Volusia counties recently
granted Mr. Sholtz a franchise for the
bridge and it was the intention to
build it where the ferry now crosses.
There is a sharp bend in the river
at this point, however, and the war
department has asked Mr. Sholtz to
amend his plans so as to move the
location 400 feet. As soon as the new
specifications are prepared they will
be submitted to the war department
and when the necessary permit is
granted material for the construction
of the bridge will be immediately
ordered. Mr. Sholtz states that work
will probably not be commenced until
spring.

The place where the bridge is to
be constructed is two and one-half
miles from DeLand Junction.

start under Cleveland toward building
a navy. Mr. Herbert as secretary

problems to the armor plate question
and to all others bearing on the navy,

WAR SUMMARY

(The Associated Press.)

The Teutons are only six miles from
Galatz, the important Rumanian port
on the Danube at the end of the Ser-
eth line. The Teutons took Vaden
yesterday. Few changes are reported
on the balance of the line. The
weather is reported bad.

Petrograd reports indicate virtually
no changes.

Berlin claims isolated gains in the
Moldavian frontier mountains in the
Riga district at the northern end of
the Russian front. The Russians evi-
dently withstood the heavy German
counter-attacks.

Activity on the Franco-Belgian front
is confined mostly to artillery action.

"WHERE ARE MY CHILDREN?" HERE TODAY

Manager Titus, of the New Daytona theatre, will, this afternoon and night and tomorrow, present one of the most remarkable preachers yet

filmed "Where Are My Children?"

The picture deals with birth control and the right of the unborn child.

Seldom it is that so daring a subject is treated in so delicate, impressive, dignified and unoffensive manner as does Lois Webber in the presentation of this masterpiece. Miss Webber has approached the subject in a sincere, courageous and intelligent manner and the result is a production that will make men and women think. It succeeds in making its point and drives its lesson home without offense. The picture deals with two big points—the dissemination of knowledge regarding birth control which is favored and race suicide which is condemned. Miss Webber argues that

veal boiled until tender, one-half

cupful shelled peanuts, two tablespoonfuls butter, five and a half tablespoonfuls flour, two-thirds cupful milk, one-third cupful veal stock, three-quarters

teaspoonful salt, few grains pepper, dry breadcrumbs and an egg. Make a white sauce of the milk, stock, flour, butter, salt and pepper. Chop the veal fine. There should be three cupfuls.

Add the peanuts rolled almost to powder and combine with the sauce. Cool, form into chop shaped croquettes, roll in fine dry breadcrumbs and in the egg

slightly beaten and diluted with one

quarter cupful of cold water, then in the crumbs again. Insert a piece of

macaroni in the end of each to represent the bone of a chop and fry in deep

fat hot enough to brown a bit of bread in forty counts.

Pork Chops, Southern Style.—Select

nice meaty chops and spread the fol-

lowing dressing on them, add a little

water and bake one hour or more:

Dressing: A cupful of breadcrumbs, a

tablespoonful of butter, an egg, poul-

try seasoning, salt and pepper. Veal

steak or cutlets can be used instead of

pork chops if desired.

Homemade Pork Sausage.—Women

are not wasting the leftover pieces of

bread in these days of higher priced

loaves. One use for stale bread is to

put it with pork for sausage. Have

your market man chop with his

machine pork to measure one and a half

pints. Add to the pork the same meas-

ure of breadcrumbs, milk enough to

moisten, an egg, pepper, salt and

ground sage to taste. Mix well, make

into small cakes and fry. These sau-

sgages are delicious.

Chicken à la King.—Select young

tender chicken. Remove the skin and

cut up. Wash in two waters. To the

first add a teaspoonful of bicarbonate

of soda. Wipe dry. Roll in melted

butter and dust with flour; salt and

pepper. Add a large spoonful of sherry.

Put in a covered pan and bake for

an hour. Have prepared fresh trimmed

toast. Fry in butter very thin slices

of ham—sliced boiled ham preferably.

Put a strip of ham on the toast and a

piece of chicken on top. Blend the

ham gravy with the chicken gravy.

Add one-half cupful of thick cream and

pour over the chicken just before serv-

ing.

In the final great moment of spiritual exaltation Naomi has realized the greatness of Bancroft's love and of his power.

CHOWDER-FEST IN SIGHT FOR AD MEN WEDNESDAY

MORE THAN 150 ACCEPTANCES
HAVE ALREADY BEEN RE-
CEIVED FOR EVENT AT ELKS'
HOME.

More than one hundred and fifty acceptances have been received by Chas. E. Gardner, member of the local Ad. club, who will have charge of the clam chowder dinner and smoker at the Elks' club Wednesday evening when the Daytona Advertisers' club will entertain the delegates to the state convention of Associated Advertising clubs.

The advance guard of the various delegations are expected to arrive early Tuesday morning for the one day session.

The meeting will be called promptly at 2 o'clock in order to finish all business before the evening session. F. M. Howe, president of the local club, has announced that delegates with papers to read must finish them at the afternoon session because lengthy after-dinner speeches will be barred.

Advice reaching Daytona today indicates a record attendance with practically every section of the state represented. Palatka, Miami, St. Augustine, DeLand and Jacksonville members have signified their intention of coming practically one hundred strong.

"Florida From an Advertising Stand-point," is one of the papers on the program. Discussion will be led by J. Harvey Whitney, publicity manager of Duval county. Other speakers will be S. T. Kidder, St. Augustine; William A. Thomas, director of advertising of the American Newspaper Publishers Association, and Jefferson Thomas, of the Thomas Advertising service.

Prominent editors and newspaper managers who have signified their intention of attending are Oscar T. Conklin, of the Miami Herald, and Stanley S. Litchy, of the Melbourne Times.

"LEAK PROBE AND PEACE NOTE FORCED STOCKS TO BOTTOM"

"The last peace note and the "leak" investigation are responsible for the fall in the New York stock market failing to rise from their recent tumble and for our belief that conditions cannot remain the same and think it an opportune time to buy," said one prominent Eastern financier today, after calling at the new brokerage office of Clement D. Cates, 46 Magnolia avenue.

He predicted a general advance within two weeks claiming that such low prices could not maintain for many days.

R. S. Moore, of Jacksonville, who will have charge of the Daytona branch office was busy today receiving visitors who congratulated his firm in their enterprise in opening an office here.

Mr. Moore announced that they would receive opening and closing quotations on New Orleans cotton, New York cotton, Chicago wheat, provisions and New York stocks and endeavor to secure any quotations where possible stocks are not listed.

The offices have been made very attractive and a leased wire will be in operation by tomorrow, it was announced.

BAD STRETCH ON THE DELAND ROAD

Everyone who has had occasion to travel the road from here to DeLand during the process of its reconstruction is well aware of the fact that the whole procedure has not been as annoying and disconcerting as the bad stretch which extends just beyond Waycross at the present time. At this point the road is almost impassable for the reason that the sand is nearly hub deep. Some courageous automobile made a track through this deluge and since every automobile passing, has followed in its wake. It is impossible for motor cars going in opposite directions to pass, and if it is attempted the result is disastrous.

Sunday there were no less than seven cars held up at one time, one getting stalled which resulted in the others being held up for nearly an hour. Surely something can be done to alleviate this trouble, and at once. No road is traveled more than the Daytona-DeLand road and it certainly leaves a bad impression upon the mind of the tourist when all our efforts are for pleasant memories of the "prettiest winter resort in the world."

Mr. and Mrs. John Kolle and Mr. and Mrs. H. A. Intemann motored over to Orlando Saturday in Mr. Kolle's car and returned Sunday, accompanied by Mr. and Mrs. Silas Winter, of Sadieville, Ky., friends of Mrs. E. P. Intemann, who will visit Mrs. Intemann and Mr. and Mrs. H. A. Intemann for a while at their winter home on North Beach street.

YOUNG OFFENDER IS GIVEN SUSPENDED 60-DAY JAIL TERM

William Arnold, 14 years old, who
was arrested Saturday, by Chief of

Just the Season For Beautiful Wraps

Design by Franklin Simon & Co., New York.

THE seasons of winter gayety charging upon youth, all seasons will need beautiful wraps to cover silvery gowns. Geranium red, light blue, rose, amethyst, saffron blue, green and a rich shade of brown are the tones that this velvety wrap comes in. Lined with soft silk in harmonizing shades, it is further beautified by a muffler collar and bandings of taupe colored fur.

Fine linen handkerchiefs have gay borders of several harmonizing colors

arranged in straight lines around the border. One especially pretty pattern has a border in solid color with an arrangement of polka dots above. Two colors are used or a color and black.

Dainty handkerchiefs have queer motifs, figures or flowers embroidered in one corner in many pleasing colors.

Veils of plain mesh have one huge embroidered motif that is placed to fit amusingly over one cheek or eye.

SCARCELY A VACANT SEAT AT SUNDAY'S ORCHESTRA CONCERT

The memory of Sarsina is very dear; he was an artist who knew the power of music and, with that name, he made hundreds of friends for Daytona by the use of the sweet strains of his band.

Mr. Kirk, the conductor of the orchestra this year, has carried the work on beyond where any band, composed of brass instruments could ever go. He is a musician of rare talent and a cultured artist in the use of his talent. He has established the love of orchestral music in the hearts of our visitors and his wise selections of music, the best music of the masters, which he and his musicians reader, with all the modern technique have so popularized his really excellent concerts, that the Casino Burgoyne, large as it is, is none too large for the crowds.

On Sunday afternoon there was scarcely a vacant chair either in the casino or on the veranda and many were standing, besides numbers going away because they had arrived too late to secure a seat. The concert was an excellent one, being a program of such music as "The Merchant of Venice," "The Sextette from Lucia," "Meditation" by Thais, "The Rosary" and the music of Grieg, Chamande and Nevin.

Probably there is not a city in the United States, certainly not one in Florida, where such music, rendered with the utmost skill under the leadership of such an artist, is provided for the free entertainment of visitors and given with such comfortable environment as given every afternoon and evening in the splendid casino of the city of Daytona.

ENTERTAINED IN HONOR OF SISTER

The Misses Constance and Inez Maley entertained a group of intimate friends on Saturday afternoon at their home on Cedar street, the pretty affair being given in honor of their sister, Miss Virginia Maley. After a spirited contest at auction, Miss Alyce Green received the first prize and Mrs. W. J. McDonald the second. Not until the guests had assembled in the dining room for refreshments was the real purpose of the charming entertainment revealed. At each place was a pretty place card bearing a clever verse calling attention to an important announcement under the rose. This was a complete surprise to most of the guests, being the announcement of the engagement of Miss Virginia Maley and Alan Shaw. Felicitations were showered upon the lovely bride-elect and the best of wishes upon this happy culmination of an ideal romance which began when both were students in the Daytona high school.

The color scheme of pink and white was carried out in every detail the table being centered with an artistic arrangement of pink and white carnations, the heart-shaped cakes with the initials of the happy pair and the dainty bon-bon baskets all in harmony.

Those present were: the Misses Ruth Rogers, Dora Williams, Ethel Sholtz, Lee Bowers, Antoinette Foltz,

The Difference.
"Light shower" is defined by the Kansas City Star as a thunderstorm just before the ball game. A "cloud-burst" is a thunderstorm just before church time.

Methods of Recuperation.
The scholar who has broken down after overwork, who is capable of controlling and even abusing his attentive powers, does not require a re-development of attentive control, but should be prevented from introspection. For him light literature, games of patience, and jigsaw puzzles are useful. For the society woman who has never concentrated her attention on anything more serious than a tan-goo tea or a comedy, exercises requiring more effort of concentration should be advised.

GASPARILLA AND HIS CREW PREPARING TO AGAIN INVADE TAMPA

TAMPA, Jan. 15.—American, Spanish, Cuban and Italian residents of cosmopolitan Tampa are completing arrangements for presenting their eleventh annual Gasparilla carnival, which draws inspiration from the ravages of Don Jose Gasparilla, the Spanish pirate, on the Gulf Coast of Florida more than a century ago, and the dates of which are February 2 to 16. In past years this carnival has given the most unique mid-winter festivities in this country, and many notables of the United States, Europe and the West Indies have been entertained by its pageants and brilliant functions in tourists hotels and American and foreign clubs. The next carnival promises to be the most brilliant of the series, and in honor of the event the railroads and steamship lines offer special rates from points east of the Mississippi and some points west.

Gasparilla and his crew, after deserting the band of Jean Lafitte, erected a stronghold on Gasparilla Isle, the ruins of which are still in view. This is the site of the present day thriving port of Boca Grande, and from it Gasparilla Inn derives its name. In the neighborhood Mrs. Potter Palmer of Chicago, internationally famous society and business woman, is engaged in promoting the most extensive real estate development project in Florida. On nearby shores the pirates are reputed to have buried millions in Spanish gold before being captured and hanged by the crew of an American man-of-war, and fortunes have been lost in futile efforts to recover the treasure. Adventurous men have lost their lives while on these expeditions, among these being Tony Roussett, a youth of French extraction, who, frightened by imaginary pirate ghosts, ran a distance of thirty miles in one night to the nearest settlement and died a few months later at the Florida Hospital for the Insane with pirate visions still haunting him.

Each year Gasparilla and his phantom crew sail into Hillsborough Bay, subdue the city and inaugurate an era of merrymaking in which people of many nations participate. To the carnival has been added a product exposition, in which twenty semi-tropic countries and the island of Cuba participate, and harness and running races, golf tournaments and other outdoor sports are featured. The exposition grounds are a part of the municipally owned Tampa Bay hotel property and are located in the heart of the principal residence section of the city.

ADMIRAL SIR DAVID BENTLEY

TAKE TIME TO READ
(By H. Addison Bruce)

There are a good many foolish people in the world, few of whom have any idea how foolish they are. Most of all, perhaps, is this true of the foolish people who insist that they have no time to read.

Many such people even speak with a kind of boastfulness of their non-reading habit.

"Read!" they exclaim. "Why, no, I never read. It is all I can do to find time to glance through the newspaper. I have got to attend to business you know."

My pity goes out to these people. I can see them as I write—tense, strained, always on the go, inclined to irritability, their minds uneasy, the demon of unrest perpetually harrying them.

Listen, brother.

Ours is proverbially a nervous age. Physicians and psychologists marvel at the increase of functional nervous and mental disorders. All sorts of theories are advanced to account for this increase. For myself, I firmly believe that it is in large part due to the decline of the reading habit.

Men need mental foods just as truly as they need material food. They can get it to some extent from newspapers—though not by merely "glancing" through them. But newspaper reading is not enough.

There must also be magazine reading, and there must in especial be book reading.

Brother, you who are rushing from home to office, from office to club, from club to home, from home to theater or dance or card game—stop and consider.

You feel a lack somewhere. You know that things are not exactly as they ought to be. You feel that you are not master of yourself—that something is driving you to chase hither and yon, for what purpose you cannot tell.

That something is your hungry mind. It longs to be fed with intellectual nourishment, just as your body longs to be fed with physical nourishment. And, just as cooks can feed your body, authors can feed your mind.

Get acquainted with books, good books. Take time to read the great poets, novelists, historians, essayists, scientists, philosophers. They will give your mind the food it craves. And they will tranquillize your mind.

Even from the standpoint of business success, it will pay you to acquire the reading habit.

No matter what your business, you can get from books—from all sorts of books—ideas that will prove "paying" ones to you. The song of a poet may mean to you something that can turn into dollars and cents.

Best of all, through books you will be able to live efficiently as well as to work efficiently. It is a great thing to know how to live—and the man who does not read is usually a man who does not know how to live. The restlessness, the nervousness of the non-reader, is sufficient proof of this.

You have lonely moments? Your books can make them happy ones. You have times of depression? Books can turn these into times of quiet, restful nerve-invigorating contentment. Books are joy-bringers of almost miraculous power.

Brother, take this to heart. Don't go on living without books. You are missing more than my feeble words can express—far more. Begin to read, begin to enjoy books, begin to draw from them the peace of mind, the strength of mind, that lies enwrapped in the world's great literature, ready for your use, my use, everybody's use.

No Bank Failures in China.

Nine hundred years ago China had a bank failure, remarks the Sioux City Tribune. Hi Hung, ruler of the Celestial empire at the time, investigated and discovered shady conduct on the part of the bank officials. He immediately issued an edict that the next time a bank went to the wall the heads of its president and directors should be forfeited. Since then there have been no bank failures in China. This method of dealing with frenzied finance may not be appealingly poetic, but it appears to have been indisputably effective.

Making Billiard Balls.

The experience of the workers in ivory for billiard balls has shown that as it dries ivory shrinks. The tusks of the cow elephant have been found best adapted to the making of billiard balls. The tusk of the female is not so curved as that of the male, and the fine nerve passage is not so clearly seen. Billiard balls are turned in the rough and kept in a warm room for a long time, sometimes as long as two years. Then after shrinking they are turned again.

FRENCH WOMEN ARE
LOYAL TO COUNTRY

PARTICULARLY POOR WOMEN
ARE LAUDED IN REPORT TO
FRENCH ACADEMY ON DISTRIBU-
TION OF VIRTUE PRIZES.

(The Associated Press.)

PARIS, Jan. 15.—French women, particularly the poor, were represented by Ernest Lavisse in his report to the French academy on the distribution of virtue prizes as having during the war honored France by the virtues they have shown. "Women—nearly all poor—school mistresses, working women, domestics, have worked miracles of filial piety, devotion and charity," said he. "Servants faithful to their employers, fallen into distress, serve them without wages and even in cases aid them by sacrificing slowly accumulated economics to pay their debts. One of them is raising seven children of her dead employer. Another 80-year-old servant is raising five orphans. A widow, mother of three children, has taken charge of six orphans. One mother of thirteen children has extended her maternal protection to fifteen orphans.

"These people do good without effort, naturally, just as they breathe; everything is simple to them because their hearts are simple. There are 37 of them in our report on the annual contribution of prizes for individual virtue."

M. Lavisse paid a tribute to the practical sympathy shown for France by citizens of the United States, mentioning particularly Mr. and Mrs. Edward Tuck for various benefactions, including a hospital at Raoul and donations to other hospitals and different relief funds.

Protection During Thunderstorm.

In the event of a lightning stroke on an unprotected building there is considerable danger to life, but there is no doubt that an unprotected house is preferable to the open, under trees, or in unprotected outbuildings. As shown when a stroke falls on an unprotected house sheltering a family of the average number of persons, the minimum chances of escape are 45 in 100. In all probability, however, the chances of escape are much greater than this.

W. W. MARSHALL, Owner

Who Put the Breeze in Seabreeze?

Col. C. M. Bingham, Mayor of Daytona, was in his office when we found him and asked: "Colonel, who put the breeze in Seabreeze, anyway?"

"Who put the breeze in Seabreeze, the City Beautiful?" the Colonel very affably repeated, and pleasantly went on with the history of the City Beautiful in a most interesting reminiscent manner. "I remember when what is now Seabreeze had just one house in it. That was on the river front, owned by C. L. Smith. Let me see, that was about 1880. It was nearly all public land in those days. Charley Ballaugh homesteaded what is now Seabreeze. Gradually, at first, a few houses were built there. It has always been a hospitable place, a nice to place to visit and so on. Col. C. C. Post became infatuated with it. He bought most of Charley Ballaugh's holdings. C. F. Burgman was later associated with Col. Post and between them they organized the town of Seabreeze. They proved their faith in their town and spent a great deal of money improving it. Col. Post built the old Colonnade Hotel. It was a great success. Everybody was invited when Colonel and Mrs. Post entertained, and their genial hospitality was a great pleasure to enjoy. The beautiful Ocean Boulevard with its immense flower urns on each side was one, a casino and fishing pier where the values have never decreased in the town; they grow steadily higher and higher. So, from a scenic, social and real estate standpoint, I think perhaps Col. and Mrs. C. C. Post and our present County Commissioner, C. F. Burgman, were the ones who started the 'breeze' in Seabreeze, and it is still blowing, gathering value every day."

Better read these advertisements every day. You are likely to miss something of value if you do not.

ON LONG DISTANCE FRANCHISE TUESDAY

WORLD'S GREATEST TELEPHONE
SYSTEM WILL BE JOINED TO
DAYTONA AFTER THE VOTERS
HAVE BEEN TO THE POLLS.

Daytona will hold a special election tomorrow to pass on the Long Distance Telephone ordinance.

According to the city charter it is necessary that all ordinances of this nature be approved by a vote of the people.

The business interests of Daytona as well as the interests of the hotels and many of their guests are vitally concerned in this important matter.

The American Telephone and Telegraph company has now more than 355 miles of cable stretched from Jacksonville through Daytona to Miami and the last lap to Key West is now under construction.

When this is completed it will constitute a joining link with the proposed cable from Cuba and it is reliably predicted that this will be accomplished within the next three weeks.

More than half a million dollars has been expended in this construction work and the indispensable and necessary expenses connected therewith.

From Jacksonville to Key West the right of way of the Florida East Coast railway has been followed. When completed the line will be 522 miles long.

Inability to get material has caused some delay on the Key West extension as part of the cable used is manufactured in England. However, it is believed that the line will be completed within the next three weeks.

Service is now being maintained from Jacksonville to Miami and towns along the way, with connections for cities of other states, and if the election to be held tomorrow ratifies the franchise Daytona will enjoy the splendid long distance service that the American Telephone and Telegraph company has a world reputation for.

A cable between Key West and Cuba is being contemplated and ultimately, will be laid, in which event the line between Jacksonville and the Island City will be utilized. Such a cable would connect the United States and Cuba by telephone and also connect Canada.

As previously reported, after the franchise is ratified, and there can be no possible objection to its being granted, Daytona will have what is known as an A1 office, which permits the local operator to connect directly with other cities instead of having to get the call through Jacksonville, as the operators have to do now.

Suit Filed Asking Recovery Of Over 2,000,000 Acres of Everglades and \$2,000,000

(The Associated Press)

JACKSONVILLE, Jan. 15.—Recovery of more than two million acres of state lands and nearly \$2,000,000 of trust funds alleged to have been misappropriated and fraudulently and illegally directed from the use to which they were exclusively dedicated, is asked for in a suit filed here today in the United States district court, demanding the appointment of a receiver for the Internal Improvement fund of the state of Florida.

This suit is an outgrowth of the failure of Florida to complete the drainage and reclamation of the Everglades. The bill of complaint was filed today by Clair D. Vallette and A. B. Quinton, representing former congressman J. B. Showalter, of Pittsburgh, Pa., and others, who allege bad faith on the part of the trustees in having induced them to buy Everglades lands under promise that they were to be drained, and failing to carry out the promise of drainage.

An effort now being made by the

state to sell \$3,500,000 of Everglades reclamation bonds is objected to and sought to be enjoined by the court, on the ground that the proceeds from this bond sale will be sufficient to pay only for contracts under way and that the issuance of these bonds would be a hindrance to the financing of real reclamation on an adequate scale, which it is asserted, will cost \$40,000,000 or more.

The court is asked to appoint a receiver for the trustees and to authorize him, among other things to sue for the recovery of two million acres of land and \$153,000 in money granted and paid by the trustees to the Florida East Coast, Louisville and Nashville and other railroads, in settlement of land grant claims; to collect \$1,600,000 in back taxes on state lands within the Everglades drainage district which the trustees were instructed by the legislature to pay, but which have never been paid; to recover \$150,000 from the State School Fund

which it is alleged was illegally diverted to that fund from sale of drainage lands, and to recover large sums of money as attorneys fees in alleged illegal settlements of the railroad land grant claims. The receivers, if the suit is successful, would also be given control of the 1,500,000 acres of Everglades lands still undisposed of, and authorized to complete their reclamation.

Among the alleged illegal grants of Everglades lands made to corporations for other than drainage purposes was one for building a canalized waterway for transportation along the east coast of Florida, which was subsidized by land grants of 3,860 acres for every mile of canal. One big grant was made as a bonus for building a railroad, no part of which was located within nearly 400 miles of the Everglades.

A partial list of Everglades land grants declared in the bill to have been illegal, and for the recovery of which the court is asked to authorize a receiver to bring suit are:
